WHELEN®

LINZ6 Super-LED Lighthead

Here's a rugged little powerhouse that shrugs off moisture and road shock while giving "heads up" performance...anywhere on your vehicle! 69 Scan-Lock™ flash patterns, including steady-burn. The "synch" interconnect wire allows up to eight lightheads to be synchronized together.

Dimensions: 2" H x 1.625" D x 4" L

Order No. GLL LINZ6*	Solid Color—Amber, Red, Blue or White	\$126.95
Order No. GLL LINZ6#	Split Color—R/W, R/B, R/A, B/W, A/W or A/B	\$132.95

WHELEN®

TIR3 Series Light Modules

Features:

- Highly effective TIR3 Super LED surface mount module comes with black ABS plastic flange
- Super-LED tough, low current, vibration and moisture resistant
- Available with 10 ScanLock patterns with phase 1 and phase 2 (for simultaneous or alternating flashing lights) including steady burn and synchronized wire
- 5-year warranty
- 1-1/8"H x 3-1/2"W x 1-1/4"D
- Amber, Red, Blue or White

Order No. GLL RV*03ZCR	Vertical	\$69.95
Order No. GLL RS*03ZCR	Horizontal	\$69.95

LIN3 Super-LED Lighthead

WHELEN®

LIN3 Super-Led lightheads are a linear version of the TIR3 and includes a black flange for horizontal surface mounting. It has the same flash pattern capability, comes in the same colors and uses the same optional mounting brackets as the TIR3. Dimensions: 1-1/8"H x 3-1/2"W x 1-1/4"D.

Order No. GLL RS*02ZCR	Amber, Red, Blue or White	\$69.95

Under Mirror Light

This light was designed to mount under the mirror of emergency vehicles to provide a critical intersection warning signal like no other light on the market. This powerful, small light provides 180 degrees of warning power to increase visibility at intersections for maximum safety for all motorists. Powerful output, wide angle, specially designed optics & innovation. Light has a 5 Year No Hassle Warranty & is certified for SAE J845 Class 1 at a 100 degree angle.

VEHICLE WARNING LIGHTS

WHELEN®

Mirror Mounted Super-LED® Series Lightheads

Features:

- Field replaceable 500 Series Linear or ION Super-LED lightheads in custom molded housings that fit over the vehicle's existing mirror glamour caps
- Unless specified otherwise, mirror beams are for use with remote controlled exterior mirrors only
- Lenses follow the natural housing angle to your advantage. The direct aiming point is offset, improving immediate intersection visibility
- Textured black finish housings, sold in pairs
- Rated for 100,000 hours of operation
- Multiple Scan-Lock™ flash patterns, standard
- Includes 15' Cable with AMP Connectors

WHELEN®

Vertex Directional Lighthead

Features:

- Produces light in an upward pattern
- Includes side emitting reflector for use internally within composite headlight taillight assemblies
- Surface mounts with optional flange kit in chrome or black, see Vertex 7/8" Light

Order No. GLL VTXD609x	Solo Color	\$84.95
Order No. GLL VTXD609x	Split Color	\$88.95

WHELEN®

Vertex™ 7/8" Super-LED® Light

Only 7/8" in height, this small hemispheric LED lighthead is perfect for most applications where size and intensity are critically important.

Features:

- 25 Scan-Lock™ flash patterns, includes synchronize feature for alternating and synchronous flashing of multiple lamps
- New lens technology enhances light distribution for optimum dispersion and intensity of the warning signal at critical angles
- Includes pre-wired and sealed 9' neoprene cable to the lighthead and lamp driver, with 4-22 gauge power, pattern and synchronize pigtail wires
- Aluminum base and advanced thermal heat management system is designed for endless years of trouble free service
- Lamp and in-line driver are fully encapsulated for moisture and vibration resistance
- Omni-directional lighthead mounts in any position (orientation), vertically or horizontally
- Backward compatible to HA238 and standard 1" Hideaway style lights
- Available in red, amber, white and blue; solid or split colors. LED color must match color of the lens it is installed behind, except for clear lens
- Dimensions: 7/8" H x 1-1/2" D
- 10-16 Vdc
- Amp draw .750/peak, 300 average

WHELEN®

Sleek Rooftop Mounting System

Whelen's QuickFit is designed for fast and effortless installation. The bolt-on system securely mounts QuickFit with no cutting or drilling, for a strong and secure rooftop mount.

Features:

- Mounts a variety of Whelen emergency lighting without any vehicle damage, including beacons and the following mini lightbars: Responder® LP, Mini Century™, Mini Liberty™ II, and Mini Legacy™
- Vehicle specific vacuum formed install kits provide a perfect fit
- Durable Black powder-coated aluminum construction
- Bolt-on installation system with fixed brackets requires no cutting or drilling, providing peace of mind when used on both leased trucks and aluminum roof structures
 - ⇒ Quickly and easily mounts using the screw holes of the vehicle's third brake light - The third brake light remounts to the QuickFit platform
 - ⇒ Wiring is simple to install through the existing third brake light opening, without removing the headliner
- Quickfit is designed to keep a level mounting surface for the life of the install
- Mounting area is approximately 7.5" (54mm) x 17.25" (438.15mm)
- Includes mounting bracket
- Two year warranty

SpectraLux Rear Hatch ILS Interior Lighting System (Center-Focused)

Features:

- SpectraLux multicolor technology is configurable in combinations of Amber, Blue, Red, Green, or White
- Solaris LED assemblies provide the highest optical efficiency
- ROC (reliable onboard circuitry) technology reduces potential failure points
- Compatible with FS convergence network sirens
- Rear deck ILS models incorporate 10 reflectors
- 26 flash patterns
- With SpectraLux while in motion, rear models can flash in Red/Blue pattern then changes to Amber SignalMaster flash pattern
- SignalMaster can be configured to be 6 or 8 heads
- Left, right, and center out SignalMaster patterns
- Five year warranty

Order No. DAL SIFMHx	2020-2021 Ford Interceptor Utility, 2021 Chevy Tahoe, 2016+ Dodge Durango	\$1054.95
Order No. DAL SIFMRx	2016+ Dodge Charger	\$1054.95

LIGHTBARS & INTERIOR WARNING

Two impressive platforms to choose from!

Integrity Lightbar

Valor Lightbar

Features:

- SpectraLux multicolor LED technology available in combinations of Amber, Blue, Red or White
- Solaris LED reflector technology for better optical efficiency and superior off-axis warning
- Built in 8-head LED rear Signalmaster for directional warning
- In all white mode, Spectralux provides an impressive flood light to the front and sides
- FS Convergence Network for 'plug-n-play' installation and programming
- Patented ROC (Reliable Onboard Circuitry) reduces failure points found in typical light bar
- Optional HotFoot for alley and takedown lights
- Available in 44" and 51" lengths and only 2 inches tall (not including mounts)
- Dimming feature to reduce light output
- Optional external mounted Opticom
- Cruise Mode
- 5 year LED Warranty
- 24 amp draw without HotFoot, 29 amp draw with HotFoot @ 12VDC

Legacy Duo+ Lightbar

Reminiscent of the classic Edge in a new style design, Legacy was designed from the rugged extrusion up to maximize the performance of the hottest LED on the market.

Features:

- Height without mounting feet is only 1-5/8"
- New Diamond Optix™ (Patent Pending) linear reflector optic design
- Newly designed, high-output one piece linear combo "Multi-Angled" corner modules produce light forward and rear and at the critical 45° angles. The four combo modules produce 360° warning signal
- All warning light heads are True DUO+. Each segment can be operated independently or at the same time, creating the first true DUO light bar, without loss of intensity Ideal when you want to run a Traffic Advisor™ and rear warning at the same time, giving the performance of two bars in one.
- Whelen's exclusive Collimator patented design captures, collects and focuses light for unbeaten light output
- Optional take-downs are available
- Optional alley or DUO+ integrated alley and warning light module ensures no dead spots, no gaps... 360° of contiguous light
- Only DUO+ lets you operate the alley and the warning lights at the same time, at full intensity

- DUO+ technology and Advanced Thermal Design "ATD" provide attention demanding new flash patterns for more lighting on-time. These include:
 - ⇒ Steady Flash™ for use at nighttime traffic stop/accident scene for added protection for officers. ATD reduces the stress on the LEDs themselves, when the dwell time of the LEDs is extended.
 - ⇒ One piece UNI-DOME construction with a single sealing point. Each dome slides onto the aluminum extrusion and wraps around all internal components while the wiper seal protects your light bar from the worst elements.
 - ⇒ Aluminum top shield stays cool to the touch, protects the light bar from natural elements such as hail and provides passive solar radiation to direct heat away from internal components to ensure long life and reliability
 - ⇒ Center divider(s) with LIM (Liquid Injection Molded) wiper seals assure light bar integrity in all conditions
 - ⇒ Legacy "plug and play" into the CenCom Sapphire™ or CanTrol™ controller. A WeCan controller module is supplied for use with other switch centers from the light bar
 - ⇒ Hard-coated lenses shrug off environmental UV damage from the sun, salt and road chemicals
 - ⇒ Legacy is the first light bar with a photocell to automatically dim at night and still meet SAE Class I requirements in low power mode

ACCESSORIES:

Traffic Advisor, Single LED Take-downs and alley lights, Lighted Sign, Built-in speaker, Smoked domes

Liberty II Series Super-LED Lightbar

Redesigned and reinvented for exactly what your fleet needs, the new Liberty™ II builds on the Liberty's reputation for excellent reliability and performance.

Features:

- Aluminum top directs heat away from internal components and protects the lightbar
- Center dividers with LIM (Liquid Injection Molded) seals protect internal components from water infiltration
- Hard-coated lenses resist environmental damage for longevity
- WeCan models are programmable with unlimited flash patterns
- Height without mounting feet is 2.8" (71mm)
- Five year HDP® Heavy-Duty Professional Warranty

nFORCE Lightbar

An innovative solution that combines next generation design with attention grabbing performance.

Features:

- Inboard LED module options: any combination of single color 6 or 9 LED, dual color 12 LED or tri-color 18 LED
- Corner LED module options: any combination of single color 12 or 18 LED, dual color 24 LED or tri-color 30 LED
- Front or rear steady-burn inboard modules
- "All white" forward facing modules option for intense forward and left/right scene lighting
- 6 LED Take Downs, 3 LED Alley Lights standard
- Manual dimming capability for nighttime use
- Cruise mode
- Ability to shut down complete front or rear inboard and select corner modules
- Rear arrow option
- Available in 24", 36", 42", 48", 54", 60" and 72" lengths
- Depth 12", Height 2.55" (bar only)
- Windows PC App software for ease of programming and RJ45 connector with Sound Off Signal sirens
- 5 year warranty

LIGHTBARS & INTERIOR WARNING

mPOWER Exterior Full Size LED Lightbar

Features:

- At only 1" thick, mpower is 50% thinner than its leading competitors
- Silicone ClearDuty molded one-piece housing and optic design delivers advantages over conventional polycarbonate lenses:
 - ⇒ A smaller footprint with maximized candela output
 - ⇒ Greater resistance to gravel pitting, scratching, or cracking
 - ⇒ Improved sealing to prevent water from entering light
 - ⇒ Higher UV and thermal stability to prevent lens from yellowing over time
- Inboard modules are offered in single color 6 or 8 LEDs, dual color 12 LEDs, or tricolor 18 LEDs
- Corner modules are offered in single color 8 or 16 LEDs, dual color 16 LEDs, or tricolor 24 LEDs
- Other user configurable options include: cruise mode, front/rear/corner cutoff inputs, nighttime manual dimming, multiple flash patterns, steady burn, and stop/tail/turn
- Takedowns can be configured as single, dual, or tricolor for maximum functionality
- Alley lights can be configured as single, dual, or tricolored to maximize intersection awareness
- Auto-dimming feature is standard

Prices vary based on configurations—24" and 60" lightbars available

Order No. **LF EMPLB**

48" dual color lightbar

LIGHTBARS & INTERIOR WARNING

Dominator™ & Dominator Plus™ Series

TIR3™ Super-LED® for the Dominator Series & LINZ6™ Super-LED® for the Dominator Plus Series

Small size and fully waterproof design make the “Dominator Series” the versatile answer to all your secondary warning and signaling needs. Choose Dominator or Dominator Plus with twice the warning light power.

Available as a six or eight light array Traffic Advisor™, or in two, four, six or eight light array flashing models. Compact enough for special use vehicles, motorcycles, quads and marine applications. This small but powerful light array is the solution to your unique warning light requirements.

Features:

- Available in Amber, Red, Blue or White
- Rugged aluminum housing with slide bolt mount
- Internal self-contained electronics
- Fully encapsulated and waterproof
- Internal Molex™ waterproof connectors
- Multiple Scan-Lock™ flash patterns and a steady-on mode
- Small diameter 4 or 6 conductor, #20 AWG wires
- 12 VDC
- Dimensions: 1-3/4”H x 2-3/16”D. Length determined by model selected
- Flashing Models:
 - ⇒ Two, four, six and eight light flashing arrays
 - ⇒ Seven flash patterns and a steady-on mode
 - ⇒ Pairs may be synchronized to each other or to other Whelen synchronizing products
- Traffic Advisor Models:
 - ⇒ Six or eight light array
 - ⇒ Six lamp light array with two end flashing lamps

Responder® LP™ Series Lightbar

Now a low profile, mini-lightbar that provides all the high performance LED warning and signaling benefits in a smaller size that fits all your special applications. SuperLED modules in a rugged polycarbonate base are built to take the roughest conditions and long hours you face. They're road tested, vibration and moisture resistant and use much lower current than other warning lights.

Put a Responder LP to work on your utility, security, fleet, construction or public works vehicle.

Features:

- Class 1, SAE J845 Certified
- 100,000 hour rated life
- 6 Super-LED modules: choose from Conical (CON3™) modules (R1LP Series) or Linear-LED® modules (R2LP Series)
- Built-in electronic flasher with 30 Scan-Lock™ flash patterns plus 4 simulated rotating patterns (permanent mount versions only)
- ActionScan™ default flash pattern
- Permanent mount includes 6" pigtail; magnetic mounts include 10' straight cord with cigar plug with ON/OFF and pattern control switch
- Polycarbonate dome with smooth exterior will not gather dirt and dust
- 12 VDC
- R1LP models: 3.0 amp draw (peak), 1.2 amp draw (avg)
- R2LP models: 6.0 amp draw (peak), 2.4 amp draw (avg)
- Available in amber, blue, or red

- (1) 40A Relay
- (1) 40A Circuit breaker
- (1) 8 Position ATO fuse block w/(7) ATO fuses attached by harness
- Dimensions: 8"W x 3 1/4"H x 2"D
- Fits D&R consoles

SWITCH CONTROLS & OUTLETS

Federal Signal offers a family of switch control models to activate a variety of lighting functions. Model SW300 has six lighted single-pole, single-throw (SPST) rocker switches for control of virtually any type of lighting function. Model SW200 offers the same quality and features of the SW300 with four SPST rocker switches. SW400SS switch control provides switching for seven separate lighting and auxiliary functions. This unit has a three-position slideswitch and four auxiliary switches. All models are equipped with backlit or LED function identification for nighttime viewing. The legends are specifically design for police and fire applications.

Switch Modules & Controls		
Order No. SW SW300-012	2.2" H x 6.1" W x 4.9" D	\$108.95
Order No. SW SW200-012	2.2" H x 4.7" W x 4.9" D	\$129.95
Order No. SW SW400SS	2.2" H x 6.1" W x 4.9" D	\$189.95

Features:

- Switching of up to seven auxiliary functions
- 20 amp fuses and 20 amp switches are standard
- Standard, high current slide switch and non-slide switch models available
- Backlit or LED function identification

These high current thermal circuit breakers are designed to protect primary supply cables where the current requirements can run from 40-150 Amps. These circuit protection devices provide an excellent method of protecting lightbars, sirens, inverters, generators and other sensitive equipment often found unprotected.

A visual trip indicator eliminates the need to manually check for power conditions, and provides a convenient method of tripping the circuit for routine maintenance inspections. Operating temperatures for these circuit protectors are from: 25 degrees to +180 degrees Fahrenheit. Terminal connections are 1/4" x 28 threaded studs.

Howler™ Siren & Speaker System

Features:

- The Howler is an add-on to any 100-200 watt warning sirens such as the Whelen 295SL Series. Works with most Siren Amplifiers. Includes two speakers for use with Howler amplifier only.
- Works with any sweeping tone, plus Hi/Low and electronic mechanical tone generated by the primary siren
- The Howler low-frequency tones are synchronous with your primary siren tones to penetrate high noise, high traffic situations
- Speaker without bracket: 7-1/4"D x 9"L
- Weight: 8lbs Amplifier: 2-1/4"H x 5"D x 4-3/4"L
- Siren comes with your choice of mounting bracket OR mounting kit can be purchased separately

Siren amp, secondary warning system, 12V low frequency tones. Mounting brackets purchased separately.

Banshee™ Revolutionary Amp Siren System

Features:

- The only siren amplifier system with dual tone capability, low frequency, electronic air horn, plus additional built in specialty tones all in one box - that provides phenomenal audio impact especially at intersections and when traveling through high ambient noise conditions
- Works with one set of standard size speakers - no need to install special large speakers. *Must use C3100 Speaker.
- Eight Universal Dual Tones (Wail, Yelp, Hyper-Yelp 1, Hyper-Yelp 2, Hi-Lo 1, Hi-Lo 2, Hyper-Lo 1, Hyper-Lo 2)
- Three Low Frequency Tones (Synchronized 1/2 Frequency, Low Frequency Yelp and Low Frequency Wail)
- Eight Low Frequency Time Out settings (7.5, 15, 22.5, 30, 37.5, 45, 52.5, and 60 seconds)
- Operate the electronic Air Horn independently of the primary siren (by itself as an alert) or while the primary siren is in full operation

Order No. **SR 3450**

Order No. SR 3599L5	\$415.95

FEDERAL SIGNAL

Pathfinder Siren

Pathfinder is a compact, programmable siren and light controller with self-contained controls. It is packed with such features as dual tone and integrated Rumbler intersection clearing capability along with optional on-board diagnostics (OBD) integration. Pathfinder is easy to install and incorporate FS convergence network technology to provide a high level of customizable control capability. All new programming software will be available as a download from the FS website making it easy to program one vehicle — or an entire fleet — from your laptop.

Features:

- 100/200 watt siren/light controller with PA and noise-cancelling microphone
- Compact size allows for console mounting
- (4) position progressive slide switch, (7) position rotary switch, and (9) push-buttons
- Built-in dual tone capability
- Built-in Rumbler intersection clearing capability
- Optional FS vehicle integration/on-board diagnostics integration (OBDII)
- Programmable timer feature
- Speaker diagnostic LEDs
- Siren tones, PA, radio rebroadcast, and air horn
- Library of selectable siren tones include Unitrol and Power-call siren tones
- Horn ring transfer and park kill
- Backlit LEDs on control faceplate emulate SignalMaster directional warning operation\
- (7) programmable inputs and (12) programmable solid-state relay outputs

CenCom Carbide

Engineered to maintain situational awareness of the officer, Whelen's CenCom Carbide™ houses numerous innovative technologies that deliver highly effective visual and auditory warning.

Designed for simplistic, hands free usage, Carbide allows officers to easily adapt with Situation Based Integration. This feature allows for scene specific functions using various vehicle components, such as the horn or brakes. Priorities can now be fully configured and controlled.

Easily reproducible from vehicle to vehicle, Carbide installs effortlessly with little wiring intricacy.

Features:

- Control warning lights, siren, and Traffic Advisor™ functions from a single keypad
- Newly designed control head with 21 buttons and slide switch
- Newly designed software allows for easy program configuration via USB 2.0
- Fully Supports all WeCan® Series products
- 2 positive or negative activated inputs
- Supports up to 2 of the following: front WeCan Inner Edge®, new rear WeCan Inner Edge, or optional remote 16 output modules
- Separate backlight control
- 18 fully protected and fused outputs
- Supports one or two 100 watt speakers
- LED indicator lights allow for simple troubleshooting of outputs and WeCan network
- Easily accessible fuses and connections
- Heavy-duty power and output connectors
- Supports WeCan dual siren amplifier option
- Meets or exceeds all applicable SAE, California Title XIII requirements with various Whelen speakers
- Five year HDP® Heavy-Duty Professional warranty

Z3S Siren—Matrix Enabled

Integrated siren, amp, lighting control, and control head

The Z3S™ Siren's intuitive design efficiently integrates the unit's emergency warning systems. The controller has three distinct zones: sirens and primary lighting, auxiliary devices and traffic or warning function. Adjust backlight brightness and public address microphone to accommodate various light and noise conditions. Additional features include a built-in battery voltage check, sleep mode timer and configurable buttons to control auxiliary or siren functions via Matrix® software.

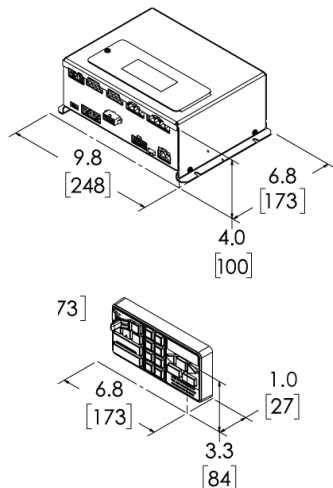

Z3S with Push Button Control Head

Z3S with Rotary Control Head

Siren Dimensions:

* Easily connects and programs any Matrix-enabled product *
 Pushbutton or rotary control head, with or without Banshee *
 18 configurable outputs: 2—20A, 8—10A, 8—500mA *
 13 configurable inputs

Order No. SR Z3SP-1	Z3 siren with Push Button Control Head	\$973.95
Order No. SR Z3SR-1	Z3 siren with Rotary Control Head	\$973.95

200 Series Compact Remote Siren

Features:

- Compact siren has a small, remote amplifier to fit tight spaces for undercover vehicles or motorcycles
- Class D technology with high speed digital switching provides higher efficiency, less current draw, and better reliability
- Operates a single 100 watt or dual 58 watt speaker
- Five popular warning tones (up to three tones can be activated) — wail, yelp, piercer, hi-lo, or super hi-lo PLUS four additional air horn tones available
- Horn ring (hands free operation) controls the tones and can be programmed to broadcast warning or air horn tones; when driver presses the vehicles horn, it will activate or deactivate the siren in programmed tone
- Volume programming capability on PA and radio broadcast sets the volume at a desired level during installation so when the driver selects either option, the volume is automatically set
- Park/kill feature disables the siren when the vehicle is placed in park

DynaMax® Speaker ES100C

FEDERAL SIGNAL

The DynaMax speaker uses the Federal Signal Neo driver, which has a proven track record of performance and reliability.

Features:

- 100-watt output
- Dimensions: 5.9" W x 5.5" H x 2.7" D
- Larger diaphragm allows the speaker to capture lower frequency ranges
- NEO driver provides increased dependability
- Composite housing
- Sound output meets SAE J1849, Title 13 and Class A
- Mounting brackets for most vehicles

GOLIGHT

Golight Portable Searchlights

From stormy roadside emergencies at 2am, to rainy late-night repairs, to moonless nights on the water...power is the first priority in lighting. Combining a revolutionary five-sided parabolic reflector with an axial filament Philips® bulb, CR5 Pentabeam™ Technology generates an extremely bright, virtually perfect beam of light to eliminate dark spots, cast a broad spectral pattern and reach distances of up to one-half mile. Projecting more usable light than other brands, CR5 Pentabeam™ brings more power to you, anywhere you go.

The patented Golight® designs reflect thousand of uses and applications for portable lighting. All units combine a unique 370° rotation with 135° tilt- creating a sphere of coverage that reaches the most extreme angles

Littlite

Littlite® sleek, low profile gooseneck lamps efficiently produce light in a concentrated area, and can easily be aimed exactly where you need it. Using halogen technology, the high intensity lamp emits crisp, bright white light in a tightly controlled pattern for use in any task involving accurate, close or detailed work. A colored red filter easily slides into place over the lamp for night vision use. LED models offer choice of red or white light from toggle switch. There's a perfect spot in any police, fire, ambulance, emergency, or utility vehicle for a Littlite gooseneck lamp.

Made of sturdy metal and finished in a durable black, baked enamel, all Littlite lamps and accessories are designed and constructed to meet the most demanding needs. The stylish finned hood is uniquely designed to dissipate heat and extend surface life.

Features:

- Flexible, durable gooseneck
- High quality construction
- Crisp, bright white light
- Low profile/sleek design
- Available in 12" and 18"
- Halogen and LED models

Strip-Lite™ Plus Compartment Lights

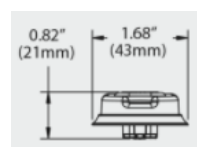

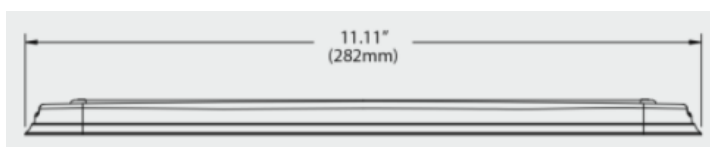

Engineered for mounting versatility and with patent-pending Water Block Technology. Sturdy. Encapsulated, no glass or filaments to break, rated for 100,000 hours of operation. Low current consumption. Surface mounted. Only a small wire access hole and two screws to install.

Features:

- Linear-LED Optics
- Low Current Consumption
- Hard-coated Lenses
- Durable Black or Chrome Flange
- Easily surface mounts with 2 screws
- Symmetrical center positions wire exit
- Included 12" pigtail
- Available in High or Low Intensity Models
- Weight: 0.30 lbs
- Dimensions: 0.82" H x 1.68" W x 11.11" L
- 5 year warranty

Order No. GLL PSCOMPL	Super-LED compartment light, intensity level 2, frosted lens	\$68.95

Full Size Rechargeables

All models include 2 sleeves, AC/DC Cords

Feature packed, the SL-20L™ and SL-20LP™ full sized professional grade, high-intensity, rechargeable flashlights offer 3 microprocessor controlled variable intensity modes, strobe mode and the latest in power LED technology. The combination of rechargeable batteries and the C4® LED results in one of the lowest operating costs of any full size flashlight made.

SL-20L LED Flashlights

Features:

- Case Material: Machined aircraft-grade aluminum with type II anodized finish. Available in black.
- Dimensions:
 - ⇒Length: 13.1 in. (33.3 cm)
 - ⇒Diameter: Major Diameter: 2.50 in. (6.35 cm)
- Lens: Unbreakable polycarbonate lens with scratch-resistant coating. O-ring sealed.
- Light Source: C4 LED technology, impervious to shock with a 50,000 hour lifetime.
- On/Off: Multi-function, push-button barrel switch. One handed operation of momentary, variable intensity or strobe mode.
- Output in Lumens:
 - ⇒High: 350
 - ⇒Medium: 160
 - ⇒Low: 10
- Runtime in hours:
 - ⇒High: 2
 - ⇒Medium: 4
 - ⇒Low: 50

Order No. UL 20703	SL20LP	\$152.95
Order No. RL 77375	Battery stick	\$39.95

SL-20LP LED Flashlights

Features:

- Case Material: Lightweight, impact resistant nylon polymer case designed with non-slip rubber comfort grip. Available in non-glare black.
- Dimensions:
 - ⇒Length: 13.2 in. (33.5 cm)
 - ⇒Body Diameter: 1.50 in. (3.81 cm)
- Lens: Unbreakable polycarbonate lens with scratch-resistant coating. O-ring sealed.
- Light Source: C4 LED technology, impervious to shock with a 50,000 hour lifetime.
- On/Off: Multi-function, push-button barrel switch. One handed operation of momentary, variable intensity or strobe mode.
- Output in Lumens:
 - ⇒High: 350
 - ⇒Medium: 160
 - ⇒Low: 10
- Runtime in hours:

Consoles

Features:

- 14" low profile angled console for 2020-21 Ford Interceptor Utility
- Mounts on Ford OEM tunnel plate between seats and fits lower dash contour
- Allows access to OEM dash 12 volt sockets and aux input plugs
- 14" of angled equipment bracket space
- Overall measurements = 6.5" high x 9" wide x 19.25" long (including forward trim panel)
- 10" from end on console to end of OEM tunnel plate
- Includes 2" C-EB20-USB-1P for relocating OEM USB plug
- Included (2) 12V sockets for mounting into C-EB20-USB-1P

Order No. **MT C-VS-1400-INUT-1**

\$278.95

Features:

- For 2020-21 Ford Police Interceptor Utility
- Horizontal console w/24" total horizontal internal mounting space
- Heavy Gauge Steel w/black powder coat
- Includes:
 - OEM USB and Light plug cutout
 - 2 additional 12v sockets w/fire and fuse
 - rocker switch or dual USB charge mod cut out.
 - OEM parking break relocation cutout
 - Plates and Brackets to enclose areas
 - Heavy-duty pole mounting holes
 - Motion device mounting holes
 - OEM rear conduit adaptor cover

Order No. **MT C-VS-0618-INUT**

\$431.95

All New VSX Console

*2020-21 Ford Police Interceptor
Utility — Redefining the work-
space for public safety profession-*

Features:

- Vehicle specific console for 2020-21 Ford Interceptor Utility
- Heavy duty steel floor mounting structure provides rigid framework for console
- Polycarbonate plastic chassis mounts to steel frame for high degree of strength, impact resistance & thermal performance
- 30% lower weight than std steel console
- Front bin w/removable tray
- Features (1) blank for relocating OEM lighter plug
- 18" Total mounting space
- Heavy Duty "hood" for equipment mounting
- Printer mount version
- Made in USA with Lifetime Warranty

C-VSX-1800-INUT-PM

Internal Mount Armrest w/ Lockable Accessory Pocket.

Features:

- Mounts in console extrusion
- More space for officers and their belt-mounted equipment
- Durable and comfortable armrest pad
- Flip-up armrest pad bracket gives access to lockable accessory pocket
- Lockable storage pocket accommodates common handguns such as Glock 17 or similar size
- Pocket: 4.4"L x 6.4"W x 11" D
- 2" deep removable tray at top of pocket
- Uses 7" of equipment space in console
- Requires 5.7" of depth clearance

- Combination box with hinged armrest and 3 lighter plug outlets
- 6" wide, 11.25" long (including lighter outlet box), 9" deep, 1.75" thick molded rubber armrest pad for comfort
- The new design includes a modular 3 lighter outlet box with 15 amp in-line fuse and wire harness included
- 16 gauge formed steel housing with extruded aluminum top frame
- Designed to mount behind console to tunnel mount base or any flat surface
- No vehicle mounting kit required
- Recommended for tunnel mount mounting
- Not recommended for weapon storage

Order No. **MT C-CB-1****\$195.95**

Magnetic Mic is a conversion kit for in-car microphones that converts the existing tongue and groove system to the innovative magnetic hang-up system. The kit is comprised of two main pieces, a circular handset piece that slides and locks into place on the back of the microphone and a base piece that replaces the existing metal hang-up clip.

Magnetic Mic works by using a powerful magnetic attraction between the two main components of the kit: the handset piece and the base piece.

Rugged Docking Stations and Vehicle Mounts, Pedestal Systems

Kit Components:

1) Vehicle Base

Vehicle Base is a no-drill solution and attaches to the passenger side seat studs. Designed using heavy gauge steel for long-term durability.

2) Lower Tube

The Lower Tube provides vertical clearance over the center console or the seat.

3) Upper Pole

Center Upper Pole allows for closer mounting to the dash and less stress on the vehicle mounting equipment as gravity is centered on the pole.

4) 9" Locking Slide Arm - Mongoose

Locking Slide Arm can rotate around 360 degrees with locking points every 15 degrees. Slide Arm can extend out from 9" to 13" from center pole and locks automatically in the retracted 9" position. Motion Attachment has tilt capabilities up to 90 degrees forward and can be swiveled up to 360 degrees.

5) Support Brace

Support Brace provides additional mount system support.

Order No. **MT SC-920-D-1-5**

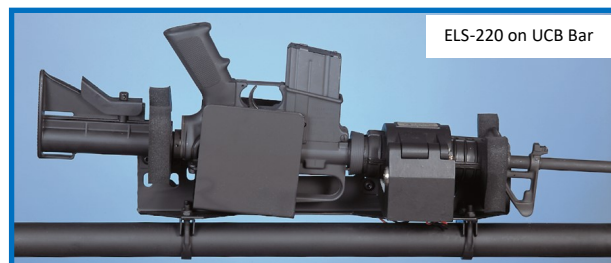

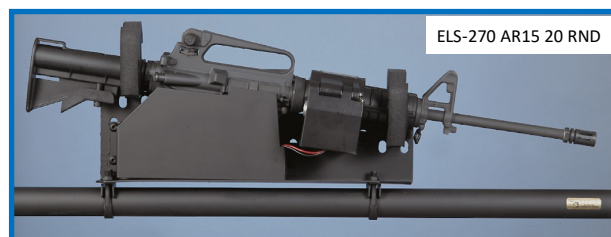

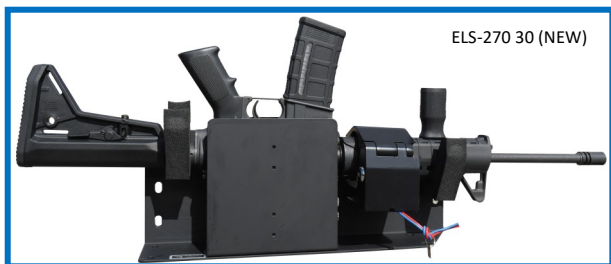

\$498.95

ELS Gun Rack Models

The ELS Series comes in eight basic rack models, accommodating most commonly used law enforcement weapons. All rack models can be mounted in one of six mounting configurations, as determined by the vehicle's interior set-up: Partitions with roll bars, partitions without roll bars (solid and mesh), flat-surface mounting (i.e., trunk lid, S.W.A.T. units), vertical mounting, shelf mounting or separate purchase of a UCB (a telescoping "Under Cover Bar") for those vehicles having no partitions. All ELS models are fully adjustable for proper weapon seating, and are attached with specially constructed mounting hardware, which allows for quick and easy installation. The locking device assembly provided with your order will be determined by your specified weapon of choice. See special instructions under "Mounting Options" for specification guidelines. Handcuff key standard, must request straight key.

THE LOFT Weapon Storage for Ford Utility and Chevy Tahoe

Patent Pending THE LOFT is a multi-purpose storage solution for the 2013+ Ford Police Interceptor Utility, Explorer or Chevy Tahoe. THE LOFT fits in the unused space above the window line and up to the headliner in the rear quarter of the vehicle.

THE LOFT-GV is designed for AR-15/M-4 Rifles equipped with standard collapsible stocks and THE LOFT-EC provides for electronic component installation. In both products the storage area used does not take away from space generally used for gear and equipment.

THE LOFT fits up near the headliner, up and out of your line of sight through the rearview mirror.

GORRHINO® PUBLIC SAFETY DIVISION

NEW Single Cell Partition

Simplifies, Streamlines and Protects Officer and Detainee during loading/unloading

COMPLETE SYSTEM INCLUDED—AEDEC Half Front Partition * AEDEC half “Pro-Straint” Detainee Seat * Rear Seat Frame * Rear Partition (full) * 3 point harness seat belt.

RETAINS FULL FUNCTION OF DRIVERS SEAT—Maximum leg room for the driver * No limitation to factory seat positions

PASSENGER SIDE CONTAINMENT—Cell resides behind passenger seat * Retains factory rear driver OEM seat * Increases storage capacity behind driver seat * Provides optimal leg room for tall detainees

3-POINT “PRO-STRAINT” HARNESS SYSTEM—3-point harness system with red belt webbing for increased visibility of security. * No need to reach across detainee when buckling.

VIRTUALLY INDESTRUCTIBLE AND LIGHTWEIGHT SEAT—AEDEC seat constructed of molded TPO and Polycarbonate materials of 0.2220 thickness * Polycarbonate upper panels allow for improved visibility of the detainee * Impermeable chemically resistant material allows for easy biohazard clean up and sterilization * Lightweight for improved fuel economy

ENGINEERED WITH SMART DESIGN—Designed specifically to eliminate gaps and crevices where contraband may otherwise be hidden * Optional window bars or polycarbonate window guards.

VEHICLE PROTECTION EQUIPMENT

SETINA MANUFACTURING

OEM Stand Alone Replacement TPO Seating with Center Pull Seatbelts

Setina's Center Pull Seat Belt System is designed for the seat belt buckle to be docked in the "Park Position" when not in use. When belting the suspect for transport, the officer simply moves the buckle from the "Park Position" on the partition to the outer latch on the transport seat. This eliminates the need to reach across suspect, reducing officer contact with the rear passenger.

Features:

- SUV seats come with 12VS Rear Cargo Partition
- Designed for critical rear seat occupant body placement
- Provides maximum rear passenger legroom
- Laser-measured for precision fit
- Designed for quick and easy installation
- Heavy-duty, moisture and pathogen resistant "TPO" polymer provides easy biohazard cleanup, ideal for contraband control, and gives your vehicle an OEM factory appearance
- Superior to ABS for automotive applications

VEHICLE PROTECTION EQUIPMENT

Prisoner Transport Seat Standard Design

The flame retardant, molded rear seats make sanitizing easy, reducing concerns of contamination from biohazards. They also reduce the chances of prisoners hiding contraband.

Prisoner seats with Outboard Seat Belts (Seats with OEM seatbelts also available). Rubber grommets, to prevent leaking of fluids under or behind the seat, are included.

Features:

- Custom fit around all edges
- Superior strength and durability
- Available in Charcoal Grey ONLY
- Seat belt extensions are not available

VEHICLE PROTECTION EQUIPMENT

Aedec Molded Seats

Features:

- Eliminates downtime searching for contraband and weapons
- Washes off easily
- Additional leg room over conventional and existing hard seats
- Longer useful life
- Immobilizes prisoner's upper body in full view of the arresting officer
- Secures the prisoner upright and prevents him from being thrown forward during transport
- Available in 2 different seat belting options: Factory or Center Belting System.

Order No. **PT 5CARCG121220**

2012+ Dodge Charger—Seat and Center Belt System

\$554.95

Patented recessed prisoner arm-restraining channels

Two different belting system options

Low profile allows for easier exit and entry

The molded seat builds on 25 years of design experience. Interior cabin space is maximized to allow for easier prisoner loading and unloading with any partition. Cargo space is left entirely open for maximum storage.

The available Center Pull belt system provides for increased prisoner security and officer safety. All Aedec brand seats feature rugged construction from the highest quality materials to ensure easy installation and a long and trouble-free service life.

SETINA MANUFACTURING

Fold-Down Bodyguard Partitions

With a touch of the lever the full coated poly window flips up into the locked position, ready to transport prisoners. Excellent for surveillance or unmarked cars.

When the window is folded down, it fits snugly against the 14-gauge steel panel, which follows the angle of the seat back, assuring comfort for rear seat passengers.

Features:

- Setina "Bodyguard" Partitions are professionally designed for maximum strength and easy installation
- Setina's superior mounting systems are engineered to attach to the strongest points of the vehicle
- To ensure the integrity of the installation, Setina does not use a universal or clamp style mounting system
- All "Bodyguard" Partitions have the same heavy duty roll bar type framework, with your choice of several window options
- Heavy duty framework strengthens the center pillar door posts, and also the top between the center posts
- Unique, curved, space-saver design follows the contour of the seat for maximum driver and passenger leg room
- The Coated Poly version used for windows is coated, scratch-resistant and guaranteed for a period of five years by the manufacturer against abrasion, coating failure, and breakage

Door Guards

The next generation of interior protection for vehicles. Unlike previous models, there is no longer a need to remove the factory door panel to eliminate the hiding of contraband and make clean up a snap. The new Door Guard installs right over the existing door panel, fits like a glove, and conceals all fasteners in the door sills making it extremely tamper resistant. No storage involved with aftermarket door panels.

The new Door Guard is made of thick-gauge TPO polymer and exceeds NHTSA regulations.

E/Z Rider K9 Platform

The E/Z Rider K9 Platform unit is fully contoured for vehicle specific, perfect fit. Front Panel made of mill finish aluminum, fully welded with double-walled impact panels, lexan head rest protectors and round vertical bars. Front Panel acts as a “Virtual Roll Bar,” a roll-over safety feature exclusive to the E/Z Rider brand.

Front sliding emergency escape door on sliding track with spring loaded locking system. Back Panel made of mill finish aluminum, fully welded with either round horizontal bars (sedan models) or 1 ¼” radius square punched design (SUV and truck models) for maximized visibility and strength. Rear drop window (on sedan and truck models only) for easy cleaning. Seamless, spill-proof Base Pan is fully welded, and specific fit contouring to allow canine leg safe ease on entry and exit. Base extends door sill to door sill utilizing all available space and allowing for easy rinsing and cleaning without damage to vehicle. Canopy with punch design allows for maximum airflow from vehicles existing factory rear A/C and heat. All platform units include perfectly contoured Window Guards and Door Panels. Window Guards are powder coated black and hinged either on top or bottom to allow for easy cleaning and maintenance. Door Panels are contoured, smooth, flat design for ease of install. Complete Hardware kit with installation instructions included.

1 Year Limited Warranty.

PUSH BUMPERS

Universal Sedan and SUV Push Bumpers

Features:

- Universal design allows for the Push Bumper Face to be transferred from one Police Package Vehicle to another with a transfer kit
- Available in three styles: Non-lighted, Integrated Dominator® LED Lightbar, or Integrated ION® LED Lightbar
- Integrated LED Lightbars are available in three lighting patterns: all red, all blue, or ½ red/½ blue
- Patented Push Bumper design features “No Holed Drilled” installation that utilizes existing OEM holes and slots to mount the bumper for a quick and easy installation
- Improved rugged steel construction ensures a longer, more durable life for the bumper
- Solid weld frame construction cuts down on installation time
- Integrated mounting design will not interfere with the SRS airbag system
- Pre-cut holes and slots in the bumper allow for mounting popular auxiliary lighting and speakers
- Black powder coated finish prevents corrosion from salt spray and other environmental conditions
- Mar resistant rubber padding provides an added layer of protection between the bumper and the vehicle being pushed

Tremco Police Anti-Theft Fleet Smart System

It is always a liability for an agency to leave a cruiser running unattended.

The Tremco Police Package Anti-Theft System is sold only to state and local police departments (not available to the general public).

Tremco Products Company solved the problem of police vehicle theft when the engine is left running with the anti-theft system police package. It is 100% reliable, convenient, and inexpensive. When personnel pull up to an emergency situation, they place the shifter into "park". With the Tremco Anti-Theft System it will automatically activate, protecting the vehicle from theft. A would-be thief cannot pull the shifter out of the "park" position. When personnel return to the vehicle, they deactivate the system and are on their way in a second.

This system also gives 24 hour protection for your vehicles when not in service. If the vehicle is not in use and the keylock is destroyed, the shifter will not release.

For many years, this police tool has protected thousands of agency vehicles from the liability of chases, fatalities, damage to vehicles, and loss of weapons.

The unique camouflage system blends in with the surrounding components for convenient everyday use. For all police package vehicles, the system plugs into existing harnesses. No cutting or splicing of wires which means quick, safe installation which will not void existing vehicle manufacturer warranties.

The unique camouflage system blends in with the surrounding components for convenient everyday use. For all police package vehicles, the system plugs into existing harnesses. No cutting or splicing of wires which means quick, safe installation which will not void existing vehicle manufacturer warranties.

Benefits:

- Police can leave their cruisers running unattended for emergency situations
- Allows emergency lighting, radios, heaters, air conditioners, and defrosters to operate while maintaining needed battery current
- Gives police officers more security at the scene of an accident or when the cruiser is occupied by prisoners/passengers while the engine and accessories are running
- Inexpensive, fast, and easy to use with the patented camouflaged system. Easy installation in about ten minutes

2013-21 Ford Interceptor Utility or 2011-2019 Ford Explorer Security Box

This high security 16 gauge steel security drawer mounts under the drivers or passengers side seat. (Does not fit Explorer Sport Model) The formfitting design of the Tuffy lockbox has over 200 cubic inches of lockable storage with no need to reroute under seat wiring harnesses. It's secured contents are easily accessed by maneuvering the drawer open and closed on the smooth ball bearing slides using the convenient pull lever.

Featuring Tuffy's Pry-Guard Locking System with a 10 tumbler double bitted security lock with built in weather seals. The design incorporates a heavy duty fully extending slide system, weather seal & welded construction. A formed rib in the enclosure additionally strengthens the locking system. Tuffy's exclusive bolt-blocker bracket is included for additional security.

Mounts inconspicuously under the seat out of apparent site of would be thieves. Easily installs using the OEM factory hardware with no drilling required for standard installation. The drawer must remain locked while operating the vehicle. Manufactured by Tuffy in the USA.

Features:

- Over 200 Cubic inches of lockable storage space.
- Exclusive 10 tumbler double bitted lock with built in weather seals.
- Pry-Guard locking system featuring 1/8" thick welded steel components.
- Pull lever for easily opening and closing the drawer.
- Formed rib in the enclosure additionally strengthens locking system.
- Tuffy's exclusive bolt-blocker bracket is included for additional security.
- Stealthy design is hidden under the seat from prying eyes.
- Welded 16 Gauge steel construction.
- Easy install, no drilling.
- No need to reroute under seat wiring harnesses.
- Durable texture powder coat.
- Heavy duty smooth rolling ball bearing slides.
- Weather & dust seal.

Ford recommends leaving the spare tire properly secured in the original factory location in the Ford Police Interceptor Vehicles. The spare tire performs an important structural role in high-speed rear impacts and must remain in the original location as installed by the factory to meet the 75-mph rear crash standard.

Shown with Cargo Radio Tray

SETINA

MANUFACTURING

Replaces the vehicle's factory rear compartment deck and provides a secure solution to lower deck radio, electronics and cargo storage, along with easy spare tire access. Constructed of heavy duty, light weight, aircraft grade aluminum.

The 3-piece design allows for quick, easy installation. Rear locking hatch is easily removed to access the radio tray and spare tire.

Shown with Cargo Storage Box

MAGNETIC MIC

Stay focused

Magnetic Mic is a conversion kit for in-car microphones that converts the existing tongue and groove system to the innovative magnetic hang-up system. The kit is comprised of two main pieces, a circular handset piece that slides and locks into place on the back of the microphone and a base piece that replaces the existing metal hang-up clip.

Magnetic Mic works by using a powerful magnetic attraction between the two main components of the kit: the handset piece and the base piece.

Power Tamer

Now you can control the amount of battery drain with a convenient programmable timer. Just set the Power Tamer to shut off your auxiliary equipment such as radios, computers and control panels at the time you specify (from 15 minutes to 16 hours). And that's it! Your auxiliary equipment will cut off at the same time after you turn off your vehicle, until you change the timer. When you're ready to restart your vehicle there's nothing to reconnect. No hood to lift, no button to push! Plus, its digital design will give you years of trouble free service. Years of testing over a wide range of temperature and voltage ranges insures reliability and allows it to be transferred to future vehicles.

Order No. SW 5601B	PT Series 30 A— up to 8 hrs	\$78.95
Order No. SW 5201-2001	PT Series TDR—up to 16 hrs	\$83.95

PriorityStart!®

Stops Battery Drain Automatically

Computerized PriorityStart!® prevents dead batteries by monitoring battery voltage. If you leave your cruiser's headlights or radio on when the engine isn't running, don't worry. PriorityStart!® automatically cuts off the battery drain when the battery voltage drops below a certain level. This ensures ample charge to get your vehicle started, and when you're ready to go, it automatically reconnects so that you can be on your way.

The Workhorse of the Industry Handles Professional Measuring Jobs Easily

Ideal for long indoor runs such as plant floor plans or outdoor measuring on firm surfaces. Large 1 meter circumference (39.37") is more accurate over rough surfaces. The modern 3-spoke design wheel is not likely to get caught when measuring in tall grass, unlike wire spokes. Wheel is made of tough engineered plastic and has a molded rubber tire. No need to worry about corrosion. The unit adds in forward motion and subtracts in backwards motion. Counter features 5 digits and a reset button. The sturdy telescoping aluminum handle adjusts to fit the individual. Includes: curved handle and molded grip. Backed by a 2 year warranty from date of purchase.

Order No. **TP RR-318N** **\$93.95**

Ideal for Measuring on Smooth Surfaces. Double Wheels for Best Balance.

Built to last, dual wheel model features include accurately molded solid rubber tires, a 5 digit counter graduated in feet and inches, or feet and 10ths of a foot, and a curved telescoping handle. Counter goes to 10,000 feet without resetting. To reset at any time simply push the reset button. This model counts when rolled forward and subtracts when pulled in reverse. Backed by a 2 year warranty from the date of purchase.

Order No. **TP RR-182** **\$59.95**

Flex-Safe Barricade

Cones, barrels, saw horses and caution tape have been the standard safety products used in the marketplace for worksite protection. Most of these products offer limited safety protection and effectiveness and are also cumbersome to use or difficult to store. Flex-Safe barricade's unique design allows it to expand in seconds.

The Flex-Safe Barricade collapses into a compact unit with convenient carrying handles, making it easy to move and store. Combining high strength, lightweight materials with state of the art design, Flex-Safe barricades offer a professional solution for perimeter control and pedestrian traffic management. When closed, The Flex-Safe Barricade can be stored in the trunk of many personal vehicles (POV's), in the side compartment of many fire engines and ambulances, or in the back on SUV's and Pick-up Trucks. The Flex-Safe Barricade is made of Powder Coated Light Gauge Steel Tubing.

Features:

- Weight: 12 lbs.
- 38"H x 38"W x 84" (Open)
- 48"H x 6"W x 8" (Closed)
- NCHRP-350 Crash Tested & Approved (USDOT Safety Standard for Work Zone/ Roadside Use)
- Available in orange or yellow

Order No. **TP FLEX-SAFE**

MEDICAL SUPPLIES & RESCUE EQUIPMENT

Throw Ropes

An improvement on the monkey's fist, these throw bags provide a way to accurately deliver a line to a person in the water or to land a messenger line onto another boat. Simply loosen the draw string, hold the top loop on one hand and throw the bag underhand with the other. The buoyant bag contains a length of specially constructed 3/8" braided polypropylene line that floats indefinitely.

Water Rescue Disc

ResQ DISC is a simple, dependable and inexpensive float on a line that flies like a FRISBEE. The 12-inch diameter disc has 100 feet of 500 pound test yellow floating line with buoyancy of over 5 pounds in water to keep even the largest swimmer afloat. The disc is easy to carry in your boat, car and truck; so it is available when you need it.

ResQ DISC can be used for water and ice rescues in all situations in open ocean, rivers, lakes, reservoirs, tanks, ponds and pools. Over 15,000 DISCS are in the hands of rescue professionals nationwide. Members of the rescue community are enthusiastic in their support of the national effort to substantially reduce drowning with the ResQ DISC.

The Sharkee is a heavy duty, multifunction antenna. This antenna can handle most, if not all radio and data communications in your vehicles including radio, public safety band, cellular data to 4G/LTE, Wi-Fi, and GPS in one unit. There are many capabilities including diversity, multi-band radio, multiple GPS< AM/FM to use existing OE antenna location all with performance at least as good as your current multiple antenna set up.

Principle advantages:

1. Latest technology and high performance
2. By using one Sharkee antenna as many as 4 antennas can be reduced to one, even as many as 7 with additional splitters
3. Cosmetically very attractive and allows an OE look depending upon installation, especially important for unmarked and under-cover vehicles.
4. Reduces the number of installations holes to one (or none extra) and makes the installation much easier and quicker.
5. Preserves the value of the vehicle at auction by less damage from installation.

Complete the "Build a Sharkee" antenna worksheet (2 page form) or call for assistance and we will work with our supplier to ensure your Sharkee meets all your needs.

Because each Sharkee antenna is customized to a departments needs, pricing varies.

TERMS & CONDITIONS OF SALE

1) PAYMENT TERMS

Agencies that are Municipally funded may be given 30 day terms, all additional charge requests must be pre-approved.

Agencies must fax the first order on an agency purchase order or letterhead.

- A) *Method:* You can choose from C.O.D. (Certified Check or Money Order), Visa, MasterCard or Discover. Adamson Industries reserves the right to change payment terms at any time.
- B) *Payment:* All payments are payable in U.S. funds. Where applicable, custom charges will be applied.
- C) *Sales Tax:* Agencies will be exempt, unless required; all others, sales tax will be added to your invoice unless an acceptable Resale Exempt number is provided.
- D) *Shipping:* Every effort is made to ship your product within 24 hours if product is in stock. Non-Stock product lead times vary. Transit times vary. Shipping charges vary due to the product, (I.E. weight, size & quantity.) A correct physical address must be provided at time of order. Next Day or 2nd Day Air may be provided for an additional charge.

2) PRICES

Our prices are FOB shipping point, with charges added to the invoice for shipping and handling. Because of the breed and depth of our product line, PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

3) OFFER TO SELL

Possession of our catalog and flyer does not necessarily constitute an offer to sell. We reserve the right to refuse to sell or ship merchandise to anyone.

4) TEN DAY MONEY BACK GUARANTEE

If you are not satisfied for any reason, return your purchase in original condition and original packaging to Adamson Industries for a refund or credit. Under this 10-day Guarantee, the return must arrive at Adamson Industries within 10 working days after your receipt of the merchandise.

Please call 978-681-0370 to receive a RMA#. Return the merchandise freight prepaid. This guarantee does not apply to any special orders.

5. RETURNS

Even after the 10-Day Guarantee period has expired, you can return goods to Adamson Industries within 30 days after initial receipt, subject to a 25% restocking fee.

Return merchandise will be accepted with a RMA#. (Call 978-681-0370 for RMA#.) Freight must be prepaid. No returns will be accepted after the 30-day period has expired. No returns on Prisoner Partitions, K-9 Interiors, Prisoner Seats, Truck Vault Storage Systems, Push Bumpers, Gun Racks and products deemed special order by Adamson Industries.

6. WARRANTY

Merchandise will be entitled to the benefit of any manufacturer's warranty, and we will assist you in the process. Adamson Industries makes no expressed or implied warranties including the implied warranties of merchantability of fitness for a particular purpose with respect to any goods and/or services sold to you.

7) LOST SHIPMENTS

As soon as you realize the shipment may have been lost, call Adamson Industries at once so we can begin the tracking process.

8) DAMAGES IN SHIPMENT

All goods are shipped FOB shipping point. Adamson Industries is not responsible for merchandise damaged in shipment. If shipping damage occurs, please take the following action. (1) Do not accept a visually damaged product until the person making the delivery has endorsed the bill of lading with a statement for the extent of the damage. (2) If damage is found after unpacking, retain all packing material and immediately request that the carrier arrange for inspection. (3) Any claims of damaged merchandise are between you and the carrier.

9. MISCELLANEOUS - PLEASE READ

SHIPPING & DELIVERY: Adamson Industries shall arrange for transportation, at your expense, to the address designated by you. Shipping date and delivery dates are estimates, and may be delayed by (1) late receipt of all necessary information by Adamson Industries, (2) prior scheduling if shipping and/or delivery dates are confirmed by you at the time your order is received by Adamson Industries, (3) other causes beyond Adamson Industries reasonable control. In any such event, Adamson Industries shall not be liable to you for any loss of time, material, or production, or any other loss resulting from late delivery of goods.

EXCLUSION OF LIABILITY FOR DAMAGES: In no event shall Adamson Industries be liable to you under any cause or claim of any nature whatsoever, regardless of whether characterized as a tort, negligence, contract, warranty, or otherwise, for any loss of profits or other economic loss, including, but not limited to such losses as (1) wages paid to your employees, (2) lost revenue, (3) lost use of equipment, (4) purchase lease, or acquisition of replacement, substitute, or temporary equipment, facilities of services, (5) cost of capital, (6) costs or losses related to downtime, (7) manual labor cost, (8) or any other indirect, incidental, special, consequential, or other similar damages arising out of any claim relating to purchase of goods and/or services from Adamson Industries, including losses resulting from general or particular requirements and needs of buyer, whether or not Adamson Industries, at the time of contracting, had reason to know of such requirements or needs, and whether or not such losses could have been reasonable and prevented by you by cover or otherwise. Adamson Industries' liability to you shall in no event exceed the purchase prices of the items giving rise to Adamson Industries' liability to you.

CHOICE OF LAW AND FORUM SELECTION: All dealings between Adamson Industries and you shall be governed by the laws of Massachusetts. Any legal or equitable action of whatever nature against Adamson Industries arising out of or related in any respect to this agreement or any purchase order, or arising out of any dealings between Adamson Industries and you shall solely be brought in the appropriate court of the State of Massachusetts located in the jurisdiction where Adamson Industries has its principal place of business.
